

Green Policy

Our Aims & Objectives

At the Crowne Plaza we accept and embrace our green policy as part of our duty in helping to protect the environment and we encourage our suppliers, partners and guests to do the same. We have an appointed Green Team with a commitment to training and developing further environmental initiatives.

Waste Management

- 🌱 Recycling programs are in place throughout the hotel including paper, delivery boxes, printer toners, card, glass, plastic, tins, cans, soap products, and cooking oil.
- 🌱 We use eco-conscious cleaning products including e-clothes.
- 🌱 We will always email contracts, confirmations etc where possible to reduce paper use.
- 🌱 Online brochures are available.
- 🌱 All of the hotels internal communications (i.e. weekly business sheets) are emailed to each individual, instead of printing.
- 🌱 All staff areas have been fitted with 'plumed' water machines to eliminate use of water bottles and to reduce plastic wastage.

Water Conservation

- 🌱 Guests are offered the choice of re-using their towels.
- 🌱 We have a water device in place to reduce toilet flush in all guest bathrooms and public areas.
- 🌱 We have low flow taps to reduce water wastage.

Air Quality

- 🌱 Low volatile organic compound materials are used, such as paints etc.
- 🌱 We provide information on local public transportation for guests.
- 🌱 We encourage our staff to car share.

Energy Efficiency

- 🌱 Staff always ensure that office and back of house lights, air conditioning systems and computers are switched off when they are not in use.
- 🌱 Natural light is used wherever possible to minimize lighting.
- 🌱 We use low energy light bulbs throughout the hotel.
- 🌱 The hotel has double glazing throughout to reduce energy loss

Eco-Cuisine – Food & Beverage

- 🌱 Menus produced internally will be printed on recycled paper stock.
- 🌱 Food produce is seasonal and locally sourced to reduce air-miles.
- 🌱 Free range produce is used such as Chicken, Eggs etc.

We encourage and motivate our team to enjoy and embrace our hotels green policy and to assist wherever possible in implementing ways in which to keep the hotel as green as possible.
